## **Center for Nonprofit Excellence to Provide Financial Management Workshops for Nonprofit Organizations**

BOYNTON BEACH, FL - March 10, 2008 - The Center for Nonprofit Excellence will provide a series of 7 workshops on Financial Management for nonprofit organizations during March and April.

The workshops are designed to provide executive directors, finance officers and individuals working in a financial management capacity the latest information and guidelines needed to strengthen the financial management of their organizations. Participants will learn to develop proper internal controls, prepare budgets, produce a financial policies and procedures manual, understand the audit process, update their fiscal practices and prepare to efficiently and effectively manage grants. There will be opportunities at each session for group participation and inter-active discussion.

Workshops are scheduled to begin March 12, 2008 at Children's Services Council in Boynton Beach and will run through April 23. Space is currently available in all workshops. Those interested in registering should go to The Center's website, [www.mynonprofitcenter.org](http://www.mynonprofitcenter.org) or call the Project Leader for Education at 561-214-7437. Registration is \$50.00 per workshop.

Often referred to as "The Center", the Center for Nonprofit Excellence's mission is to promote quality and accountability in our nonprofit community through leadership development, education, and management services. The Center was established by a coalition of public and private funders in January 2006 to strengthen the administrative and operational capacity of nonprofit organizations. The Center has three major divisions: Agency Certification; Education, Leadership and Consulting Services; and Management Support Services.

For more information about The Center's programs and services, contact Ann Reinert, Director of Operations & Marketing at 561-214-7443.
